

List of Publications of Professor Ramanath Cowsik

1. Neutral Pion Production by 17 GeV Negative Pions in Carbon.
P. Babu, R. Cowsik and Y. Pal. *Nuo. Cim.* **29**, 785 (1963).
2. Flux of Atmospheric Neutrinos of Different Types at Sea Level and Cosmic Ray Neutrino Experiments.
R. Cowsik, Y. Pal, T.N. Rengarajan and S.N. Tandon, in *Proceedings International Cosmic Ray Conf., Jaipur, 1963*, **6**, p. 221.
3. Experimental Limits on a Possible Neutrino Degeneracy in the Universe.
R. Cowsik, Y. Pal and S.N. Tandon, *Phys. Letters*, **13**, 265 (1964).
4. High Energy Nuclear Active and Muonic Components in Extensive Air Showers.
R. Cowsik, in *Proceedings Ninth International Cosmic Ray Conf. London, 1966*, **2**, p. 656.
5. Evaluation of High Energy Natural Neutrino Experiments.
R. Cowsik, Y. Pal and S.N. Tandon, in *Proceedings Ind. Acad. Sciences, A, 1966*, **63**, p. 217.
6. 3°K Blackbody Radiation and Leakage Lifetime of Cosmic Ray Electrons.
R. Cowsik, Y. Pal, S.N. Tandon and R.P. Verma, *Phys. Rev. Letters*, **17**, 1298 (1966).
7. Steady State of Cosmic-Ray Nuclei – Their Spectral Shape and Path Length at Low Energies.
R. Cowsik, Y. Pal, S. N. Tandon, and R. P. Verma, *Phys. Rev.* **158**, 1238 (1967).
8. Lithium, Beryllium, Boron and Fluorine Nuclei in Cosmic Radiation.
R. Cowsik, Y. Pal, S.N. Tandon and R.P. Verma, in *Elementary Particle Physics & Astrophysics*, proceedings of the Symposium on Cosmic Rays, Aligarh, 1967, **1**, p. 19.
9. Measurements on Energy Spectrum of Primary Helium Nuclei by a Magnetic Spectrograph.
R. Cowsik, Y. Pal, S.N. Tandon and R.P. Verma, *Can. J. Phys.* **46**, S646 (1968).
10. Properties of Air Showers and the Nature of the Primary Cosmic Rays Spectrum.
R. Cowsik, *ibid.* **46**, S142 (1968).
11. Cosmic Ray Interactions.
R. Cowsik, Ph.D. Thesis, Bombay University (1968).
12. Steady State of Primary and Secondary Components of Cosmic Rays.
R. Cowsik, Y. Pal, S.N. Tandon and R.P. Verma, *Can. J. Phys.* **46**, 646 (1968).

13. Galactic X Rays and Gamma Rays.
R. Cowsik and Y. Pal, Phys. Rev. Lett. **23**, 1467 (1969).
14. Possible Origin of High-Energy Cosmic Gamma Rays?
R. Cowsik and Y. Pal, *ibid.* **22**, 550 (1969).
15. Spectra of Heavy and Super-heavy Nuclei in Steady State.
R. Cowsik, Y. Pal, S.N. Tandon and R.P. Verma, in *Proceedings of 11th International Conference on Cosmic Rays, Budapest, Hungary, 1969*, edited by A. Somogyi, Vol. **1**, p. 439 (1970).
16. Rigidity Spectrum of Cosmic Ray Helium Nuclei with Magnetic Spectrograph.
R. Cowsik, Y. Pal, S.N. Tandon and R.P. Verma, *ibid.* **1**, 297 (1970).
17. Magnetic Spectrograph for Primary Cosmic Ray Studies.
R. Cowsik, S.V. Damle, Y. Pal, T.N. Rengarajan, S.N. Tandon, R.P. Verma and P.A. Vidwans, *ibid.* **29**, p. 535 (1970).
18. Lower Limit on the Mass of the Weak Intermediate Boson.
R. Cowsik and Y. Pal, *ibid.* **4** (1970).
19. Submillimeter Radiation Background and Its Observable Consequences on Cosmic Ray Phenomena.
R. Cowsik, *Astrophys. Lett.* **6**, 39 (1970).
20. Isotopic Composition of Primary Cosmic-Ray Nuclei
B. Peters, N. Lund, R. Cowsik and Y. Pal, *Phys. Lett. B* **31**, 553 (1970).
21. Energetic Electron Bursts in the Plasma and Neutral Sheets of the Magnetotail During 1964-68.
R. Cowsik, J.L. Mathur, J.A. Simpson, J.D. Sullivan, D.H. Fairfield and N.F. Ness. *Transactions-American Geophysical Union*, **51**, 815 (1970).
22. Search for a Consistent Model for Electromagnetic Spectrum of the Crab-Nebula.
R. Cowsik, Y. Pal and T.N. Rengarajan, *Astrophys. and Space Science*, **6**, 390 (1970); 11th International Cosmic Ray Conference, Budapest.
23. Solar Flares, the Lunar Surface, and Gas-Rich Meteorites.
D.J. Barber, R. Cowsik, I.D. Hutcheon, P.B. Price and R.S. Rajan, in *Proceedings of the 2nd Lunar Scientific Conference, 1971*, **2**, p. 2705.
24. Extragalactic Cosmic Radiation.
R. Cowsik and Y. Pal, University of Maryland, Preprint (1971).
25. Origin of Cosmic Rays.
R. Cowsik and P.B. Price, *Phys. Today* **24**, 30 (1971).

26. Cosmic Ray Electrons and the Gamma-Ray Background.
R. Cowsik, in *Proceedings of the 12th International Cosmic Ray Conference, Tasmania, 1971*, **1**, p. 334.
27. Particle Acceleration by White Dwarfs and the Charge Spectrum of the Nuclear Component of Cosmic Rays.
R. Cowsik, *ibid.* **1**, p. 239.
28. Dynamical Models of the Galaxy and its Gamma Ray Emission.
R. Cowsik and I.D. Hutcheon, *ibid.* **1**, p. 102.
29. Comments on Inverse Compton Models for the Isotropic X-Ray Background.
R. Cowsik and E.J. Kobetich, *ibid.* **1**, p. 38.
30. Enhanced Emission of Iron Nuclei in Solar Flares.
P.B. Price, I.D. Hutcheon, R. Cowsik and D.J. Barber, *Phys. Rev. Lett.* **26**, 916 (1971).
31. Upper Limit on the Neutrino Rest Mass.
R. Cowsik and J. McClelland, *Phys. Rev. Lett.* **29**, 669 (1972); in *Cosmological Constants* (Columbia Univ. Press, 1986), p. 102, edited by J. Bernstein & G. Feinberg; in *Unity of Forces in the Universe*, (World Scientific Pub. Co., 1982) edited by A. Zee; in *Inflationary Universe* (Harvard Univ. Press), edited by R. B. Abbot et al.
32. Limit on Energy Density in Submillimeter Background Radiation.
R. Cowsik, *Nature Phys. Sci.*, **239**, 41 (1972).
33. Comment on Inverse Compton Models for the Isotropic X-Ray Back-Ground and Possible Thermal Emission from a Hot Intergalactic Gas.
R. Cowsik and E.J. Kobetich, *Astrophys. J.*, **177**, 585 (1972).
34. Is the Residence Time of Cosmic Rays in the Galaxy Energy-Dependent?
R. Cowsik and L.W. Wilson, in *Proceedings 13th of the International Cosmic Ray Conf., Denver, CO, 1973*, **1**, p. 500.
35. Supernovae and the Origin of Cosmic Rays.
R. Cowsik and L.W. Wilson, *ibid.* **1**, 644 (1973).
36. The Astrophysics of the Diffuse Background of X-Rays and Gamma Rays.
R. Cowsik, in *Proceedings of the International Symposium & Workshop on Gamma Ray Astrophysics, 1973*, edited by F.W. Stecker and J.I. Trombka, Preprint No. X-641-73-180.
37. Gravity of Neutrinos of Nonzero Mass in Astrophysics.
R. Cowsik and J. McClelland, *Astrophys. J.* **180**, 7 (1973).
38. Inverse Compton Gamma Rays from the Galactic Disc.

- R. Cowsik and W. Voges, *9th ESLAB Symposium. ESROSP-106, 1974*, p. 229.
39. On the Origin of Gamma-Ray Bursts.
R. Cowsik, *Deutsche Physikalische Gesellschaft*, **35**, 234 (1974).
 40. Turbulence-Enhanced Synchrotron Radiation in the Galaxy.
R. Cowsik and J. Middledorf, *Astrophys. J.* **189**, 51 (1974).
 41. Gamma Ray Emission from the Galactic Disc.
R. Cowsik and W. Voges, in *Proceedings 14th International Cosmic Ray Conf., Munich, Germany, 1975*, **1**, p. 74.
 42. Supernovae as Cosmic Ray Sources.
R. Cowsik and L.W. Wilson, *ibid.* **2**, 475 (1975).
 43. Cosmic Ray Sources.
R. Cowsik, *ibid.* **11**, 3578 (1975).
 44. Average Properties of Molecular Clouds in the Galaxy.
R. Cowsik, S. Drapatz and K.W. Michel.
Ibid. **1**, 181 (1975).
 45. The 'Nested Leaky-Box' Model for Galactic Cosmic Rays.
R. Cowsik and Lance W. Wilson, *ibid.* **2**, 659 (1975).
 46. Geometry of Inverse Compton Ray Sources.
R. Cowsik, in *Proceedings of COSPAR meeting, Sao Paolo, 1974*; in *Space Res.*, *XV*, Akademie- Verlag, Berlin (1975).
 47. On Galactic Rotation and the Intergalactic Medium.
R. Cowsik and I. Lerche, *Astrophys. J.* **199**, 555 (1975).
 48. Simple Analytic Solutions Appropriate for Galactic Cosmic-Ray Modulation.
R. Cowsik and M. A. Lee, *Astrophys. J.* **216**, 635 (1977).
 49. Towards a Selective Acceleration Process for Atomic Nuclei.
R. Cowsik and I. Lerche, in *Proceedings of the 15th International Cosmic Ray Conf., Budapest, Hungary, 1977*, **5**, p. 12.
 50. Does Fermi Type Acceleration Play a Role in Galactic or Solar Cosmic Rays?
R. Cowsik, *ibid.* (1977).
 51. High-energy Particle and Photon Emission from Solar Flares.
R. Cowsik, *ibid.* **10** (1977).
 52. Evidence Bearing on the Interaction of Gas and High-energy Particles in Quasi-stellar Objects.
J. Baldwin, A. Boksenberg, G. Burbidge, R. Carswell, R. Cowsik, J. Perry and

- A. W. Wolfendale, *Astron. Astrophys.* **61**, 165 (1977).
53. Limits on the Radiative Decay of Neutrinos.
R. Cowsik, *Phys. Rev. Lett.* **39**, 784 (1977).
54. On the Sources of Cosmic Ray Electrons.
R. Cowsik and M.A. Lee, *Astrophys. J.* **228**, 297 (1979).
55. A Fokker-Planck Approach to the Initial Mass Function of Stars and Galaxies.
H. Zinnecker, R. Cowsik and S. Drapatz, in *Proceedings of the 9th Texas Symposium on Relativistic Astrophysics, 1979*.
56. Evolution of the Radio Spectrum of Cassiopeia-A.
R. Cowsik, *Astrophys. J.* **227**, 856 (1979).
57. Radiative Stability of Neutrinos of Finite Rest Mass.
R. Cowsik, *Phys. Rev. D* **19**, 2219 (1979).
58. A Lower Limit to the Magnetic Field in Cassiopeia-A.
R. Cowsik and S. Sarkar, *Mon. Not. R. Astron. Soc.* **191**, 855 (1980).
59. Relativity Experiments in Space.
R. Cowsik, in *Gravitation, Quanta & The Universe*, (Weiley Eastern Ltd, 1980) p.18, edited by R.Prasanna, J.V.Narlikar, and C.V. Vishveshwara,
60. Galactic Gamma Rays and the Origin of Cosmic Rays.
R. Cowsik, in *Non-Solar Gamma Rays*, (Pergamon Press, Oxford), p. 205, proceedings of the Scientific Assembly of the Committee on Space Research, 1980, edited by R. Cowsik and R.D. Wills.
61. Gamma Ray Emission from Supernova Remnants.
R. Cowsik and S. Sarkar, *ibid.* p. 57 (1980).
62. Comments on Stochastic Acceleration of Cosmic Rays.
R. Cowsik, *Astrophys. J.* **241**, 1195 (1980).
63. Lower Limit on the Lifetime of Nucleons.
R. Cowsik and V.S. Narasimhan, *Phys. Rev. D* **22**, 2204 (1980).
64. Properties of Neutrinos Derived from Experiments in Nature.
R. Cowsik, in *Proceedings of the Neutrino Mass Mini Conference, 1980*, edited by B. Barger & D. Cline (Wisconsin). p. 50.
65. Propagation Studies Related to the Origin of Cosmic Rays.
R. Cowsik, in *Origin of Cosmic Rays*, Proceedings of the International Astronomical Union Symposium. No. 94, Bologna, Italy, 1980, edited by G. Setti et al (Dordrecht, D. Reidel Publishing, 1981), p. 93.

66. Neutrinos of Finite Rest Mass in Astrophysics and Cosmology.
R. Cowsik, in *Cosmology and Particles*, Proceedings of the Recontre de Moriond, edited by Tran Trahn Van, Les Arcs, (1981) p. 29.
67. Existing and Potential Limits to Lifetimes of Massive Neutrinos.
H.O. Shipman and R. Cowsik, *Astrophys. J. Lett.* **247**, 111 (1981).
68. Evidence for the Dominance of Heavy Nuclei in Cosmic Rays at 10^5 GeV
R. Cowsik, S. C. Tonwar, P. R. Vishwanath, R. W. Ellsworth, J. A. Goodman, A.S. Ito, R.E. Streitmatter and G.B. Yodh, in *Proceedings of the 17th International Cosmic Ray Conference, 1981*, **2**, p. 120.
69. Acceleration of Cosmic Rays in Accretion Shocks.
R. Cowsik and M.A. Lee, *ibid.* **2**, 318 (1981).
70. Antiprotons from Galactic Sources of Cosmic Rays and Gamma Rays.
R. Cowsik and T.K. Gaisser, *ibid.* **2**, 218 (1981).
71. Neutrinos of Finite Rest Mass in Astrophysics and Cosmology.
R. Cowsik, in *Cosmology and Particles*, edited by J. Audouze et al.(1981), p. 157.
72. A New Torsion Balance for Studies in Gravitation and Cosmology.
R. Cowsik, *Ind. J. Phys. B* **55**, 497 (1981).
73. Massive Neutrinos in Physics, Astrophysics and Cosmology.
R. Cowsik, Presented at Silver Jubilee Seminar at Bhabha Atomic Research Centre (1981).
74. Some Constraints on $\Delta B=2$ $n-\bar{n}$ Oscillations.
R. Cowsik and S. Nussinov, *Phys. Lett. B* **101**, 237 (1981).
75. Microcosm and the Macrocosm - A Complementary Inter-Relationship.
R. Cowsik, Presented for Hari Om Prerit Vikram Sarabhai Award Lecture at Physical Research Laboratory, Ahmedabad (1982).
76. Challenges in Experimental Gravitation and Cosmology.
R. Cowsik, Department of Science & Technology Report; New Delhi (1982).
77. Sensitive Test of Equivalence Principle.
R. Cowsik, S.N. Tandon and N. Krishnan, *ibid.* (1982).
78. Transport of Neutrinos, Radiation and Energetic Particles in Accretion Flows.
R.Cowsik and M.A. Lee, *Proc R. Soc. London, Sect A* **383**, 409 (1982).
79. Oblateness Effects on the Spindown of Fast Pulsars.
R. Cowsik, P. Ghosh and M.L. Melvin, *Nature* **303**, 308 (1983).

80. Acceleration of Electrons in Supernova Remnants.
R. Cowsik and S. Sarkar, in *Proceedings of the 18th International Cosmic Ray Conference Bangalore*, 1983, **2**, 306.
81. Special Relativistic Effects in Rapidly Moving Plasmoids.
R. Cowsik, P.P. Deo, N. Krishnan and M.M. Vasanthi, *ibid.* **2**, 234 (1983).
82. Neutrinos in the Universe.
R. Cowsik, *Current Science* **52**, 1104 (1983).
83. Gravitational Waves.
R. Cowsik, *Science Age* **18**, 14 (1984).
84. The Evolution of Supernova Remnants as Radio Sources.
R. Cowsik and S. Sarkar, *Mon. Not. R. Astron. Soc.* **207**, 745 (1984).
85. Study of Composition and Energy Spectra of Cosmic Ray Ions of $Z=6-28$ of $E=1-100$ TeV/n in space station.
S. Biswas, R. Cowsik, N. Durgaprasad, P. Kajarekar, S.A. Stephens, S.N. Tandon, M.N. Vahia and J.S. Yadav, in *Proceedings of the Workshop on Cosmic Ray Studies in Space Station Era, Baton Rouge, Louisiana State University, 1985*, edited by W.V. Jones & J.P. (Wefel, Univ. Press), p. 357.
86. IONS: Ionization States of Low Energy Cosmic Rays-The Indian Experiment on Spacelab-3.
S. Biswas, R. Cowsik, N. Durgaprasad, J.N. Goswami, P.J. Kajarekar, H.S. Mazumdar, D. Lal, M.K. Padmanabhan, D.V. Subhedar, M.N. Vahia and J.S. Yadav, *ibid.*, p. 323 (1985).
87. Constriction of Cosmological Bounds on Neutrino Masses by Flavor Mixing Decays.
R. Cowsik, *Phys. Lett. B* **151**, 62 (1985).
88. Exact Solutions for Sporadic Acceleration of Cosmic Rays.
R. Cowsik, in *Proceedings of the 19th International Cosmic Ray Conference, La Jolla*, **3**, 242 (1985).
89. Halo of NGC 4631 and Models of Cosmic-Ray Transport.
R. Cowsik and S. Sukumar, *ibid.* **2**, 370 (1985).
90. Constraints on Properties of Neutrinos from Astrophysics and Cosmology.
R. Cowsik, in *Proceedings of the VII High Energy Physics Symposium*, **2**, 1 (1985).
91. Detector System for Cosmic Ray Heavy Ions of $E=1-100$ TeV/N in Space Station.
S. Biswas, R. Cowsik, N. Durgaprasad, P.J. Kajarekar, S.A. Stephens, S.N. Tandon, M.N. Vahia, J.S. Yadav, J.N. Goswami and D. Lal, in *Proceedings International Workshop on Scientific Uses of Space Station, La Jolla*, 131 (1985).
92. The Invisible Universe.

- R. Cowsik, in *Cosmic Pathways*, edited by R. Cowsik (1986), p. 289.
93. Dynamical Effects of an Extended Cloud of Dark Matter on Dwarf Spheroidals.
R. Cowsik and P. Ghosh, *J. Astrophys. Astron.* **7**, 7 (1986).
94. Towards a Physical Model for Galactic Rotation Curves.
R. Cowsik and P. Ghosh, *ibid.* **7**, 17 (1986).
95. Dark Matter - Systematics of its Distribution.
R. Cowsik and M. Vasanthi, *ibid.* **7**, 29 (1986).
96. The Neutrino Hypothesis for Dark Matter in Dwarf Spheroidals.
R. Cowsik, *ibid.* **7**, 1 (1986).
97. Sporadic Acceleration of Cosmic Rays.
R. Cowsik, *ibid.* **155**, 344 (1986).
98. Ionization States of Cosmic Rays: Anuradha (IONS) Experiment in Spacelab-3.
S. Biswas, R. Chakraborti, R. Cowsik, N. Durgaprasad, P.J. Kajarekar, R.K. Singh, M.N. Vahia, J.S. Yadav, N. Dutt, J.N. Goswami, D. Lal, H.S. Mazumdar, D.V. Subhedar and M.K. Padmanabhan, *Pramana* **27**, 89 (1986).
99. Indian Cosmic Ray Experiment IONS (Anuradha) in Space Shuttle Spacelab-3 Using CR-39 detectors.
S. Biswas, R. Chakraborty, R. Cowsik, N. Durgaprasad, P.J. Kajarekar, R.K. Singh, M.N. Vahia, J.S. Yadav, J.N. Goswami, D. Lal, H.S. Majumdar, D.V. Subhedar and M.K. Padmanabhan, *Nuclear Tracks* **12**, 411 (1986).
100. IONS (Anuradha): Ionization States of Low Energy Cosmic Rays.
S. Biswas, R. Chakraborty, R. Cowsik, N. Durgaprasad, P.J. Kajarekar, R.K. Singh, M.N. Vahia, J.S. Yadav, N. Dutt, J.N. Goswami, D. Lal, H.S. Majumdar and M.K. Padmanabhan, in *Proceedings of the NASA Conference, 1986*.
101. Transport of Radiation and Energetic Particles in Accretion Flows.
R. Cowsik and M.A. Lee, in *Proceedings of the International Astronomical Union Symposium No. 119 on Quasars, Bangalore, 1986*, edited by G. Swarup and V.K. Kapahi, (D. Reidel Publ. Co.), p. 407.
102. Gravitational Lenses as Probes of the Distribution of Dark Matter in the Universe.
R. Cowsik and P. Ghosh, *ibid.* p. 545 (1986).
103. Rotation Curves and Profiles of Surface Density of Galaxies Embedded in Extensive Neutrino Clouds.
R. Cowsik and P. Ghosh, in *Proceedings of the 19th International Astronomical Union General Assembly Commission 28, New Delhi, 1986*, p. 226.
104. Contemporary Perspectives on the Origin of Cosmic Rays.

- R. Cowsik, Invited talk at the 19th International Astronomical Union General Assembly), New Delhi, 1986, p.319.
105. Dark Matter in the Universe: Massive Neutrinos Revisited.
R. Cowsik and P. Ghosh, *Astrophys. J.* **317**, 26 (1987).
 106. Dynamics of Galaxies Embedded in Dark Matter.
R. Cowsik, in *Superstrings, Unified Theories & Cosmology, Proceedings Of Summer Workshop in High Energy Physics and Cosmology, Trieste, Italy, 1987*, edited by G. Furlan, R. Jengo, J. C. Pati, D. W. Sciama & Q. Shafi, **3**, p. 375.
 107. Neutrino Mass, Flavor and Mixing in Cosmology.
R. Cowsik, *ibid.* **3**, 363 (1987).
 108. The Fifth Force Experiment at the TIFR.
R. Cowsik, N. Krishnan, P. Saraswat, S.N. Tandon, and S. Unnikrishnan, in *Gravitational Measurements, Fundamental Metrology and Constants*, (Kluwer Academic Publishers), Dordrecht, The Netherlands, 1987), edited by V. De Sabbata and V.N. Melnikov, Vol. 230, p. 231.
 109. Status of Relativity and Fifth Force Experiments.
R. Cowsik, in *Highlights in Gravitation & Cosmology*, (Cambridge Univ. Press, New York, 1988) edited by B.R. Iyer et al., p. 421.
 110. X-Ray Background - An Important Cosmological Signal.
R. Cowsik, in *Large Scale Structure of the Universe, Proceedings of the International Astronomical Union Symposium 130, 1988*, edited by J. Audouze et al., p. 479.
 111. Neutrino Mass Estimates From SN 1987A.
R. Cowsik, *ibid.* 480 (1988).
 112. Structure of Galaxies Embedded in Clouds of Dark Matter.
R. Cowsik, in *Large Scale Structures of the Universe*, edited by J. Audouze et al., p.589 (1988).
 113. Limit on the Strength of Intermediate-Range Forces Coupling to Isospin.
R. Cowsik, N. Krishnan, S. N. Tandon & C. S. Unnikrishnan, *Phys. Rev. Lett.* **61**, 2179 (1988).
 114. Design of the TIFR Fifth-Force Experiment.
R. Cowsik. In *5th Force - Neutrino Physics, Proceedings XXIII Recontre de Moriond Workshop, 1988*, edited by O. Fackler and J. Tran T. Van (editions Frontiers, France), p. 481.
 115. Neutrino Masses and Flavors Emitted in the Supernova 1987A.
R. Cowsik, *Phys. Rev. D* **37**, 1685 (1988).

116. Lower Bound on $\nu^+ e^-$ Decay of Massive Neutrinos.
R. Cowsik, D.N. Schramm and P. Hoflich, Phys. Lett. B **218**, 91 (1989).
117. Search for a New Fundamental Force - The Challenge.
R. Cowsik, Gravitation Project Extension Report (1989).
118. Thermodynamics and Orientational Order in Systems of Extended Gravitating Objects - A Mean Field Theory Approach; I. Basic Formalism.
P. Bhattacharjee, P. Ghosh and R. Cowsik, Astrophys J. **339**, 638 (1989).
119. Thermodynamics and Orientational Order in Systems of Extended Gravitating Objects - A Mean Field Theory Approach; II. Tidal Distortions and the Interaction Pseudopotential.
P. Ghosh, P. Bhattacharjee and R. Cowsik, Astrophys. J. **345**, 647 (1989).
120. A Satellite Borne Experiment to Study the Fifth Force.
R. Cowsik, N. Krishnan, S. Unnikrishnan, S.N. Tandon and P. Saraswat, Pramana J. Phys. **32**, L303 (1989).
121. Wide Field High Resolution 327 MHz Radio Observations of X-Ray Globular Cluster Fields.
S. Sukumar and R. Cowsik, Astrophys. J., **343**, 718 (1989).
122. Search for New Forces in Nature.
R. Cowsik, in *Essays on Particles and Fields* (M.G.K. Menon Festschrift), edited by R.R. Daniel and B.V. Sreekantan (Indian Academy of Sciences), Bangalore, p. 207 (1989).
123. Characteristics of Plerions Powered by Pulsars.
R. Cowsik, in *Advances in Space Research, Proceedings XXI COSPAR, Espo, 1989*, **9**, p. 87.
124. Limits on the Strength of the Fifth Force.
R. Cowsik, N. Krishnan, P. Saraswat, S.N. Tandon and C.S. Unnikrishnan, *ibid.* **9**, p. 123 (1989).
125. On the Origin of the Diffuse X-Ray Background.
R. Subramanyam and R. Cowsik, Astrophys. J. **347**, 1 (1989).
126. Torsion balance experiments for the measurement of weak forces in nature.
R. Cowsik, N. Krishnan, P. Saraswat, S.N. Tandon, C. S. Unnikrishnan, U.D. Vaishnav, C. Viswanadham and G. P. Puthran, Ind. J. of Pure & Appl. Phys. **27**, 691 (1989).
127. Constraints on the Properties of Neutrinos Derived Through Studies of Supernova.
R. Cowsik, Festival of France in India at the Round Table Conf., New Delhi, Feb.

- (1989).
128. Strength of Intermediate Range Forces Coupling to Isospin.
R. Cowsik, N. Krishnan, S. N. Tandon and C. S. Unnikrishnan, *Phys. Rev. Lett.* **64**, 336 (1990).
 129. Geophysical Searches for New Forces in Nature.
R. Cowsik, *Festschrift for Prof. D. Lal, From Mantle to Meteorites*, edited by K. Gopalan, V.K. Gaur et al. (Indian Academy of Sciences, Bangalore), **133**, p. 1 (1990).
 130. Search for Dark-Matter Particles.
R. Cowsik, *Current Science* **61**, 759 (1991).
 131. Neutrino Mass Limits from a Precise Determination of $\beta\beta$ -Decay Rates of ^{128}Te and ^{130}Te .
T. Bernatowicz, J. Brannon, R. Brazzle, R. Cowsik, C. Hohenberg and F. Podosek. *Phys. Rev. Lett.*, **69**, 2341 (1992).
 132. Precise Determination of Relative and Absolute $\beta\beta$ -Decay Rates of ^{128}Te and ^{130}Te .
T. Bernatowicz, J. Brannon, R. Brazzle, R. Cowsik, C. Hohenberg and F. Podosek. *Phys. Review C*, **47**, 806 (1993).
 133. Torsion Balances and their Application to the study of Gravitation at Gauribidanur.
R. Cowsik, Special Volume of the IUCAA Dedication Seminar, Pune, *New Challenges in Astrophysics, 1997*, edited by T. Padmanabhan, p. 109-119
 134. Experimental Studies in Gravitation and Feebler Forces at Gauribidanur.
R. Cowsik, N. Krishnan, S.N. Tandon and C.S. Unnikrishnan, *Proceedings of the XIII Recontre de Moriond*, edited by J. Tran Thanh Van, Editors Frontiers, p. 397 (1993).
 135. Geochemistry of Tellurium Ores and the Double-Beta Decay Lifetime of ^{130}Te .
F.A. Podosek, J.C. Brannon, T.J. Bernatowicz, R. Brazzle, R. Grauch, R. Cowsik and C.M. Hohenberg, *Proceedings of the Yamada Conference XXXVIII, 1994*, Edited by J.Matsuda, p. 89.
 136. Determination of $\beta\beta$ -Decay Ratio of Tellurium and Selenium Nuclei.
R. Cowsik, T.J. Bernatowicz, J. Brannon, R. Brazzle, C. Hohenberg and R. Podosek, *Proceedings of the International Conference on Non-Accelerator Particle Physics, Bangalore, 1994*, p. 90-103.
 137. Equivalence Principle and Feeble Yukawa-Like Forces.
R. Cowsik, N. Krishnan, S.N. Tandon and C.S. Unnikrishnan, *Proceedings of the 7th Marcel Grossmann Meeting on General Relativity, Stanford University, 1994*, edited by R.T. Jantzen and G.M. Keiser, p. 1583.

138. The Implications of Gamma-Ray Lines Observed from the Orion Complex.
R. Cowsik and M.W. Friedlander, *Astrophys. J. Lett.* **444**, L29 (1995).

R. Cowsik, in *Cosmology & Gravitation*, **6**, 323 (2000).
164. Early Observations of the Afterglow of GRB 000301c
S.G. Bhargavi and R. Cowsik, *Astrophys. J. Lett.* **545**, L77 (2000).
165. Progress Report on the TIFR Equivalence Principle Experiment.
R. Cowsik, N. Krishnan and C.S. Unnikrishnan, in *Proceedings of the 9th Marcel Grossmann Meeting, Rome, Italy, July 2000*, (World Scientific Publishing Co.) **3**, p. 1801.
166. A Brief Introduction to the Study of Afterglows of Gamma Ray Bursts.
R. Cowsik, In *Proceedings 12th Course: High-Energy Phenomena in Astrophysics and Cosmology, Erice, Italy, 2001*, edited by M.M. Shapiro et al., *Astrophysical Sources of High Energy Particles and Radiation*, p. 191.
167. Dark Matter Halo of Our Galaxy.
R. Cowsik, *ibid.* 81 (2001).
168. Optical Photometry of the GRB 010222 Afterglow.
R. Cowsik, T.P. Prabhu, G.C. Anupama, B.C. Bhatt, D.K. Sahu, S. Ambika, Padmakar and S.G. Bhargavi, *Bull. Astr. Soc. Ind.* **29**, 157 (2001).
169. A Possible High Altitude High Energy Gamma Ray Observatory in India.
R. Cowsik, P.N. Bhat, V.R. Chitnis, B.S. Acharya and P.R. Vishvanath, in *Proceedings of the 27th International Cosmic Ray Conference, Hamberg, Germany, 2001*, **7**, p. 2769.
170. Multiwavelength Observations of Markarian 421.
M. Jordan, J. H. Buckley, R. Cowsik, G. Fossati and Whipple Collaboration, *ibid.* **7**, 2691.
171. New Approach to Dome Automation for Optical Telescopes.
R. Srinivasan, R. Cowsik, Faseehana and A. Krishnan, in *Proceedings of the IEEE EIT Conference 2001, Rochester, Michigan, USA, June 2001 (considered as the 4th of six best papers)* (in press).

172. A Possible High Altitude High Energy Gamma Ray Observatory in India.
R. Cowsik, P. N. Bhat, V. R. Chitnis, B. S. Acharya and P. R. Vishwanath, in *Proceedings of the International Conference on Multi-Colour Universe, TIFR, Mumbai, 2001*, edited by R. K. Manchanda & B. Paul, p. 299.
173. Indian Astronomical Observatory, Hanle.
R. Cowsik, R. Srinivasan and T. P. Prabhu, in *Proceedings of the Astronomical Society of the Pacific Conference, 2002*, **266**, p. 424 (2002) edited by J. Vernin, Z. Benkhaldoun, C. Munoz-Tunon.
174. An Introduction to the Indian Astronomical Observatory.
R. Cowsik, R. Srinivasan and T. P. Prabhu, *Bull. Astr. Soc. Ind.*, **30**, 105 (2002).
175. The Extent of the Dark Matter Halo.
R. Cowsik, C. Ratnam, P. Bhattacharjee, S. Majumder, (Preprint) Presented at the *5th International UCLA Symposium on Sources and Detection of Dark Matter and Dark Energy in the Universe, Feb, 20-22, 2002*, Marina del Rey, CA, USA.
176. The Afterglow and the Host Galaxy of GRB 011211.
P. Jakobsson, J. Hjorth, J.P.U. Fynbo, J. Gorosabel, K. Pedersen, I. Burud, A. Leván, C. Kouveliotou, N. Tanvir, A. Fruchter, J. Rhoads, T. Grav, M.W. Hansen, R. Michelsen, M.I. Andersen, B.L. Jensen, H. Pedersen, B. Thomsen, M. Weidinger, S.G. Bhargavi, R. Cowsik and S.B. Pandey, *Astron. & Astrophys.*, **408**, 941 (2003).
177. The Himalayan Gamma-Ray Observatory at Hanle.
R. Koul, R.K. Kaul, A.K. Mitra, R.C. Rannot, B.S. Acharya, V.R. Chitnis, R. Cowsik, T.P. Prabhu, R. Srinivasan, R. Srivatsan, P.R. Vishwanath, in *Proceedings of 29th International Cosmic Ray Conference Pune, 2005*, **5**, p. 243.
178. Constraints on Grain Formation Around Carbon Stars from Laboratory Studies of Presolar Graphite.
T.J. Bernatowicz, O.W. Akande, T.K. Croat, and R. Cowsik, *Astrophys. J.* **631**, 988 (2005).
179. A New Instrument for Direct Observations of Torsional Normal Mode Oscillations of the Earth.
R. Cowsik, K. Wagoner, and A. Sircar, Poster 1340h S23B-0161, *American Geophysical Union Fall Meeting, San Francisco, 11-15 December (2006.)*
180. Dynamics of Dwarf-Spheroidals and the Dark Matter Halo of the Galaxy.
R. Cowsik, C. Ratnam, P. Bhattacharjee, S. Majumdar, *New Astronomy*, **12**, 507 (2007).
181. Design and Performance of a Sub-Nanoradian Resolution Autocollimating Optical Lever.
R. Cowsik, R. Srinivasan, S. Kasturirengan, A.S. Kumar, and K. Wagoner,

- Rev. Sci. Instrum. **78**, 035105 (2007).
182. An Instrument for Direct Observations of Seismic and Normal-Mode Rotational Oscillations of the Earth.
R. Cowsik, in *Proceedings of the National Academy of Sciences (USA)*, 2007, **104**, p. 6893.
 183. Development of Methods for Testing Rotational Sensors.
J.R. Evans, R. Cowsik, C.R. Hutt, C.-C. Liu, R. Nigbor, U. Schreiber, F. Vernon, and E. Wielandt, Poster for the *1st International Workshop on Rotational Seismology and Engineering Applications, San Francisco, CA, September 17-20, 2007*.
 184. Development of Methods for Testing Rotational Sensors.
J.R. Evans, R. Cowsik, C.R. Hutt, C.-C. Liu, R. Nigbor, U. Schreiber, F. Vernon and E. Wielandt, Abstract for the *1st International Workshop on Rotational Seismology and Engineering Applications, San Francisco, CA, September 17-20, 2007*, http://pubs.usgs.gov/of/2007/1144/abstracts/Abstract_Evans_etal.pdf
 185. On the Dynamical Friction Effects Operating in the Dwarf Spheroidal Galaxy – Fornax.
R. Cowsik, K. Wagoner, A. Sircar, Abstract, *American Physical Society, meeting, Jacksonville, FL, April 13-18, (2007)*.
 186. Homi Jehangir Bhabha & The Birth of the Second Family of Elementary Particles.
R. Cowsik, Invited Lecture at *The American Physical Society meeting, Jacksonville, FL, April 13-18 (2007)*.
 187. The Status of High-Altitude Himalayan Gamma Ray Observatory at Hanle.
B.S. Acharya, V.R. Chitnis, R. Cowsik, R. Koul, R.K. Kaul, A.K. Mitra, T.P. Prabhu, R. C. Rannot, R. Srinivasan, and P.R. Vishwanath.
Proceedings of the 30th International Cosmic Ray Conference, Merida, Yucatan, Mexico, July 3-11, 2007, **3**, p. 1361.
 188. A Balloon-Borne X-Ray Polarimeter for the Study of Bright Astronomical Sources.
R. Cowsik, *American Physical Society April Meeting, April 13, 2008*, Abstract M8.00006
 189. Internal Dynamics and Dynamical Friction Effects in the Dwarf Spheroidal Galaxy in Fornax.
R. Cowsik, K. Wagoner, E. Berti, A. Sircar, *Astrophys. J.* **699**, 1389 (2009).
 190. Performance Characteristics of a Rotational Seismometer for Near-field and Engineering Applications.
R. Cowsik, T. Madziwa-Nussinov, K. Wagoner, D. Wiens and M. Wyssession.
Bulletin of the Seismological Society of America, **99**, 1181 (2009).

191. A New Torsion Balance for Direct Tests of the Universality of Free Fall.
K. Wagoner, A. Sircar and R. Cowsik, Poster Session, *American Physical Society (APS) April Meeting, 2008*, Abstract: S1.00038.
192. X-Ray Polarimeter for Small Satellite Missions.
R. Cowsik, B. Paul, R. Duraichelvan and P. V. Rishin, Poster at *The Coming of Age of X-Ray Polarimetry conference, Rome, Italy, 2009*.
193. Analysis of the Spectral Intensities and Ratios of Electrons and Positrons in Cosmic Rays.
R. Cowsik and B. Burch, in *Proceedings of the 31st Cosmic Ray Conference, Łódź, Poland. July 7-15, 2009*.
194. Design Considerations of Torsion Balances for the Search of New Forces in the Submillimeter Range.
R. Cowsik and K. Wagoner, *12th Marcel Grossman Meeting, Paris, France, July 12-18 (2009)*.
195. On the Positron Fraction and the Spectrum of the Electronic Component in Cosmic Rays.
R. Cowsik and B. Burch, ArXiv: 0908.3494v1 (2009).
196. Design and Performance Characteristics of GEE Lab's Submillimeter Torsion Balance.
R. Cowsik and K. Wagoner, *Workshop on Tests of Gravity and Gravitational Physics, Case Western Reserve University (2009)*.
197. Observation of Crab Nebula with the HAGAR Telescope System at Hanle in the Himalayas.
R.J. Britto, B.S. Acharya, V.R. Chitnis, R. Cowsik, N. Dorji, K.S. Gothe, P.U. Kamath, P.K. Mahesh, B.K. Nagesh, A. Naidu, N.K. Parmar, T.P. Prabhu, L. Saha, F. Saleem, Sandeep Kumar, A.K. Saxena, S.K. Rao, S.K. Sharma, A. Shukla, B.B. Singh, R. Srinivasan, G. Srinivasulu, P.V. Sudersanan, S.S. Upadhyya and P.R. Vishwanath, in *Proceedings of the 31st Cosmic Ray Conference, Lodz, Poland. July 7-15 (2009)*.
198. Observation of Geminga and Crab Pulsars using HAGAR Telescope Systems
B.S. Acharya, R.J. Britto, V.R. Chitnis, R. Cowsik, N. Dorji, S.K. Duhan, K.S. Gothe, P.U. Kamath, M.K. Mahesh, B.K. Nagesh, A. Naidu, N.K. Parmar, T.P. Prabhu, L. Saha, F. Saleem, A.K. Saxena, S.K. Rao, S.K. Sharma, A. Shukla, B.B. Singh, R. Srinivasan, G. Srinivasulu, P.V. Sudersanan, S.S. Upadhyya and P.R. Vishwanath, *ibid*.
199. Observations of Blazars Mkn421 and 1ES 2344+514 using the PACT and HAGAR Telescope Systems.
V.R. Chitnis, B.S. Acharya, R.J. Britto, R. Cowsik, N. Dorji, S.K. Duhan, K.S. Gothe, P.U. Kamath, M.K. Mahesh, B.K. Nagesh, A. Naidu, N.K. Parmar, T.P.

- Prabhu, L. Saha, F. Saleem, A.K. Saxena, S.K. Rao, S.K. Sharma, A. Shukla, B.B. Singh, R. Srinivasan, G. Srinivasulu, P.V. Sudersanan, S.S. Upadhyaya and P.R. Vishwanath, *ibid*.
200. Status of HAGAR Telescope Array at Hanle in the Himalayas.
V.R. Chitnis, B.S. Acharya, R. Cowsik, N. Dorji, K.S. Gothe, P.U. Kamat, P.K. Mahesh, B.K. Nagesh, N.K. Parmar, T.P. Prabhu, F. Saleem, S.K. Duhan, A.K. Saxena, S.K. Rao, S.K. Sharma, B.B. Singh, R. Srinivasan, G. Srinivasulu, P.V. Sudersanan, S.S. Upadhyaya and P.R. Vishwanath, *ibid*.
 201. Analysis of the Positron Fraction and the Spectrum of the Electronic Component in Cosmic Rays.
R. Cowsik and B. Burch. ArXiv: 0908.3494 (2009).
 202. Positron Fraction in Cosmic Rays and Models of Cosmic-Ray Propagation.
R. Cowsik and B. Burch, Phys. Rev. D **82**, 023009 (2010).
 203. Direct Detection of WIMP Dark Matter Implications of a Self-Consistent Truncated Isothermal Model of the Dark Matter Halo of Milky Way in the Light of its Extended Rotation Curve Out to 60 KPC.
S. Chaudhury, P. Bhattacharjee, and R. Cowsik, ArXiv:1006.5568 (2010).
 204. Initial Results from GEE Lab's Test of Short Range Gravity
K. Wagoner, T. Madziwa-Nussinov, N. Krishnan, and R. Cowsik, *Poster at the 19th International Conference on General Relativity and Gravitation in Mexico City, Mexico, July 5-9, (2010)*.
 205. Investigations of the Inverse Square Law of Gravitation—Status and Prospects
R. Cowsik, Presentation at *19th International Conference on General Relativity and Gravitation in Mexico City, Mexico, July 5-9, (2010)*.
 206. Direct Detection of WIMP Dark Matter Implications of a Self-Consistent Truncated Isothermal Model of the Dark Matter Halo of Milky Way in the Light of its Extended Rotation Curve Out to 60 KPC.
S. Chaudhury, P. Bhattacharjee, and R. Cowsik, JCAP **9**, 020 (2010).
 207. Design and Test of the Hard X-Ray Polarimeter X-Calibur
M. Beilicke, W.R. Binns, J. Buckley, R. Cowsik, P. Dowkontt, A. Garson, Q. Guo, M.H. Israel, K. Lee, and H. Krawczynski, *2011 Fermi Symposium, Rome, Italy, May 9-12 (2011)*.
 208. Design and Test of the Hard X-Ray Polarimeter X-Calibur
M. Beilicke, W.R. Binns, J. Buckley, R. Cowsik, P. Dowkontt, A. Garson, Q. Guo, M.H. Israel, K. Lee, and H. Krawczynski, ArXiv:1109.6850v1 (2011).
 209. Superluminal Neutrinos at OPERA Confront Pion Decay Kinematics
R. Cowsik, S. Nussinov, and U. Sarkar, Phys. Rev. Lett. **107**(25) 251801 (2011).

210. Possible laboratory test for axions
G. Ramachandran, R. Cowsik, H.S. Vinay Deepak, Sujith Thomas, and
C. Raghunath, Proc. DAE Symp. Nucl. Phys. 56, 730 (2011).
211. The Black Hole Evolution and Space Time (BEST) Observatory (Response to the
Request for Information) “Concepts for the Next NASA X-Ray Astronomy
Mission” (NNH11ZDA018L)
J. Tueller, S. Barthelmy, J. Schittman, W. Zhang, J. Krolik, M. G. Baring,
E. Treister, R. Mushotzky, M. Beilicke, J. Buckley, R. Cowsik and M. Israel.
Submitted to NASA Request for Information (October 2011).
212. A General Approach to Casimir Force problems Based on Local Reflection
Amplitudes and Huygen’s Principle
C. Markle and R. Cowsik, ArXiv:1203.5326v1 (March 2012).
213. Characteristics and Response of a Rotational Seismometer to Seismic Signals
T. Madziwa-Nussinov, K. Wagoner, P. Shore, C.R. Hutt, J.R. Evans, N. Krishnan,
and R. Cowsik, Bull. Seis. Soc. Am, 102, 2, 563-573 (2012).
214. Testing Violations of Lorentz Invariance with Cosmic Rays
R. Cowsik, T. Madziwa-Nussinov, S. Nussinov, and U. Sarkar
ArXiv:1206.0713v2 (June 2012); Phys. Rev. D. **86**, 045024 (2012).
215. The hard X-ray polarimeter X-Calibur
M. Beilicke, M.G. Baring, S. Barthelmy et al.
AIP Conference Proceedings, **1505**, 805 (2012)
216. Design and tests of the hard X-ray polarimeter X-Calibur
M. Beilicke, M.G. Baring, S. Barthelmy et al.
Proceedings of the SPIE, **8507**, 85071D (2012)
217. A General Approach to Casimir Force problems Based on Local Reflection
Amplitudes and Huygen’s Principle
C. Markle and R. Cowsik, Phys. Rev. A. **85**, 5 (2012)
218. Design and Tests of the Hard X-ray Polarimeter X-Calibur
M. Beilicke, M.G. Baring, S. Barthelmy et al.,
Nucl. Instrum. Meth. **692**, 283 (2012)
219. Pointing of HAGAR Telescope mirrors
K.S. Gothe, T.P. Prabhu, P.R. Vishwanath et al., Exp. Astron. **35**, 489 (2013)
220. Origin of the Spectral Intensities of Cosmic-ray Positrons
R. Cowsik, B. Burch and T. Madziwa-Nussinov, ArXiv:1305.1242 (May 2013)
221. Is There an Unaccounted Excess Extragalactic Cosmic Radio Background?
R. Subrahmanyam and R. Cowsik, ArXiv:1305.7060 (May 2013)

222. Properties of Galactic Dark Matter: Constraints from Astronomical Observations
B. Burch and R. Cowsik, ArXiv:13061920 (June 2013)
223. Is There An Unaccounted For Excess in the Extragalactic Cosmic Radio
Background, R. Subrahmanyam and R. Cowsik, Ap. J., **776**, 42 (2013).
224. Mambillikalathil Govind Kumar Menon
R. Cowsik, Curr. Sci., **105**, 522 (2013)
225. Properties of Galactic Dark Matter: Constraints from Astronomical Observations
B. Burch and R. Cowsik, Ap.J. **779**, 35 (2013)
226. Origin of the Spectral Intensities of Cosmic-ray Positrons
R. Cowsik, B. Burch and T. Madziwa-Nussinov, Ap.J. **786**, 124 (2014)
